Marmorino Arkadia	Impex - It	MARBLE PLASTER IN PASTE FORM	GRANULE-3 TEXTURE-2	FLOORING** - INDOOR – OUTDOOR WALL	5
Marmorino Naturale	Impex - It	MARBLE PLASTER IN PASTE FORM	GRANULE-2 TEXTURE-1	FLOORING** - INDOOR – OUTDOOR WALL	4

Notes :

1) In order to achieve the desired strengths the maximum ageing for the application of waterproofing – crystallization should be achieved

Cement mortars with resin: 3 days

Marble plasters with resin: 3 days

Marble plasters in paste form: 4 days

2) The maximum hardening of crystallization is achieved after 28 days

** Marble plaster in paste form systems should be mixed with a special hardener during their application on floorings
